## **PNEUMATIC PERFUME FILLING SINGLE HEAD MACHINE**

Product Code: PPM13-PFS

Model No.: PP-PN-PFL-SH100

This PNEUMATIC PERFUME FILLING SINGLE HEAD MACHINE fills your perfume quickly using pneumatic technology. Ideal for manufacturers who want their operations to be quicker and more efficient.

### **Why should you buy PRIME PACK PNEUMATIC PERFUME FILLING SINGLE HEAD MACHINE?**

Buying our machine provides a lasting competitive edge. Its unparalleled durability and superior performance not only exceed cheaper alternatives but also promise enduring value, ensuring your success in the long run. This is a pneumatic controlled machine which requires a small size compressor. The machine has an easy process to adjust and fill the perfume bottles.

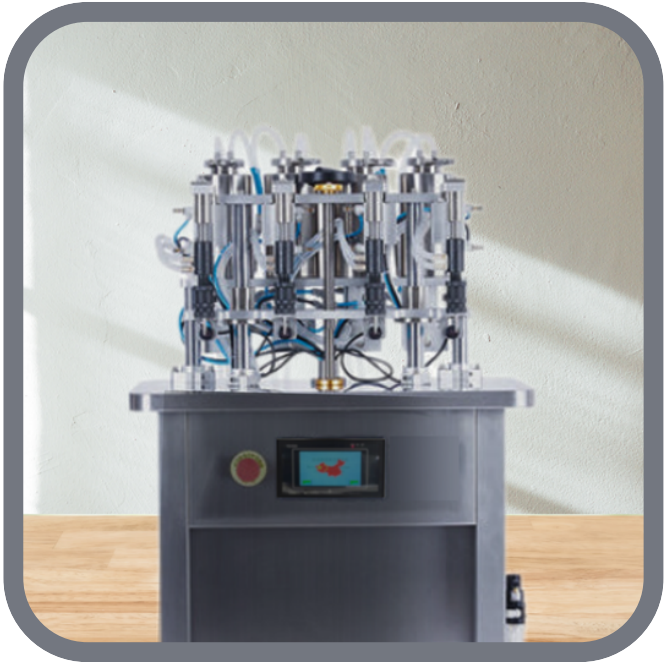

## **PNEUMATIC PERFUME FILLING DOUBLE HEAD MACHINE**

Product Code: PPM14-PFD  
Model No.: PP-PN-PFL-DH100

The PNEUMATIC PERFUME FILLING DOUBLE HEAD MACHINE is a device that fills your perfume bottles easily using pneumatic technology. Ideal for manufacturers who want easy and quick operation.

### **Why should you buy PRIME PACK PNEUMATIC PERFUME FILLING DOUBLE HEAD MACHINE?**

Buying our machine provides a lasting competitive edge. Its unparalleled durability and superior performance not only exceed cheaper alternatives but also promise enduring value, ensuring your success in the long run. This is a pneumatic controlled machine which requires a small size compressor. The machine has an easy process to adjust and fill the perfume bottles.

## **PNEUMATIC PERFUME FILLING FOUR HEAD MACHINE**

Product Code: PPM19-PFF

Model No.: PP-PN-PFL-FH100

The PNEUMATIC PERFUME FILLING FOUR HEAD MACHINE is a device that fills your perfume bottles easily using pneumatic technology. Ideal for manufacturers who want easy and quick operation.

### **Why should you buy PRIME PACK PNEUMATIC PERFUME FILLING FOUR HEAD MACHINE?**

Buying our machine provides a lasting competitive edge. Its unparalleled durability and superior performance not only exceed cheaper alternatives but also promise enduring value, ensuring your success in the long run. This is a pneumatic controlled machine which requires a small size compressor. The machine has an easy process to adjust and fill the perfume bottles.

## MANUAL PERFUME CRIMPING MACHINE

Product Code: PPM11-MC

Model No.: PP-M-PCM1000

The MANUAL PERFUME CRIMPING MACHINE is a device that can crimp your perfume bottles easily. Ideal for manufacturers with small scale production who wants easy and quick operation.

### **Why should you buy PRIME PACK MANUAL CRIMPING MACHINE?**

Buying our machine provides a lasting competitive edge. Its unparalleled durability and superior performance not only exceed cheaper alternatives but also promise enduring value, ensuring your success in the long run. Manual operation, easy to use—this machine is straightforward, requiring only a simple press to complete the work. Less maintenance, with straightforward installation and debugging, as well as few operational issues. It can be operated by individuals with limited knowledge of the machine.

## MANUAL PERFUME COLLAR FITTING MACHINE

Product Code: PPM20-MPC

Model No.: PP-M-PCFM1000

The MANUAL COLLAR FITTING MACHINE is a device that can push collars on to your perfume bottles easily. Ideal for manufacturers with small scale production who wants easy and quick operation.

### **Why should you buy PRIME PACK MANUAL COLLAR FITTING MACHINE?**

Buying our machine provides a lasting competitive edge. Its unparalleled durability and superior performance not only exceed cheaper alternatives but also promise enduring value, ensuring your success in the long run. Manual operation, easy to use—this machine is straightforward, requiring only a simple press to complete the work. Less maintenance, with straightforward installation and debugging, as well as few operational issues. It can be operated by individuals with limited knowledge of the machine.

## PNEUMATIC PERFUME CRIMPING MACHINE

Product Code: PPM15-PC

Model No.: PP-PN-PCM100

The PNEUMATIC CRIMPING MACHINE FOR PUMPS is used for sealing all types of glass perfume bottles. After sealing, they can maintain a good sealing performance. The work and control system of this machine adopts pneumatic technology.

### **Why should you buy PRIME PACK PNEUMATIC CRIMPING MACHINE?**

Buying our machine provides a lasting competitive edge. Its unparalleled durability and superior performance not only exceed cheaper alternatives but also promise enduring value, ensuring your success in the long run. This is a pneumatic controlled machine which requires a small size compressor. This machine is employed to crimp various types of perfume bottles, ensuring they maintain effective sealing performance. After the sealing process, the bottles remain securely sealed.

## **PNEUMATIC PERFUME COLLAR FITTING MACHINE**

Product Code: PPM16-CFM

Model No.: PP-PN-PC075

The PNEUMATIC COLLAR FITTING MACHINE is a device that can push collars on to your perfume bottles easily. Ideal for manufacturers who want easy and quick operation.

### **Why should you buy PRIME PACK PNEUMATIC COLLAR FITTING MACHINE?**

Buying our machine provides a lasting competitive edge. Its unparalleled durability and superior performance not only exceed cheaper alternatives but also promise enduring value, ensuring your success in the long run. This is a pneumatic controlled machine which requires a small size compressor.

## PNEUMATIC PERFUME DIP TUBE CUTTING MACHINE

Product Code: PPM12-PDTC

Model No.: PP-PN-DPTC10

The PNEUMATIC DIP TUBE CUTTING MACHINE is a device that can cut your perfume tubes to match the inner dimension of your bottle. You need a pneumatic dip tube cutting machine if you want to save time and money by avoiding waste and errors when cutting your perfume pump tubes.

### **Why should you buy PRIME PACK PNEUMATIC DIP TUBE CUTTING MACHINE?**

Buying our machine provides a lasting competitive edge. Its unparalleled durability and superior performance not only exceed cheaper alternatives but also promise enduring value, ensuring your success in the long run. For small-scale production or when starting a business, most customers will purchase the same-sized pump one time based on the minimum order quantity (MOQ). As a result, the pipe size may not be suitable for different sizes of bottles. In such cases, this machine becomes necessary. This is a pneumatic controlled machine which requires a small size compressor. The knife is sharp enough to cut each pipe very quickly. This machine can cut not only perfume pump pipes but also shampoo pump pipes, making it incredibly versatile and useful. The length that the machine cuts is adjustable so you can adjust the machine according to your desired perfume pump length.

## NEGATIVE ION DUST COLLECTOR MACHINE

Product Code: PPM21-NIDC

Model No.: PP-NIDCM100

The NEGATIVE ION DUST COLLECTOR MACHINE is a device that removes dust and other dirt out of your perfume bottles to clean it before filling.

### **Why should you buy PRIME PACK NEGATIVE ION DUST COLLECTOR MACHINE?**

Buying our machine provides a lasting competitive edge. Its unparalleled durability and superior performance not only exceed cheaper alternatives but also promise enduring value, ensuring your success in the long run. Cheaper options blow out air in the perfume bottle and clean it. The problem with this is that smaller dirt particles still get out. However, our machine ionizes all the particles, and sucks it in the machine. This makes sure that the perfume bottle is completely dirt-free. Subsequently, the perfume bottle is ready for filling.

## PERFUME MAGNETIC MIXER & STIRRER

Product Code: PPM27-PMSM

Model No.: PP-M-PMSM-5L

The PERFUME MAGNETIC STIRRER & MIXER is a device that uses a magnetic rotating field to cause the stir bar immersed in the liquid to spin rapidly, thus stirring it.

### Why should you buy PRIME PACK PERFUME MAGNETIC STIRRER & MIXER?

Buying our machine provides a lasting competitive edge. Its unparalleled durability and superior performance not only exceed cheaper alternatives but also promise enduring value, ensuring your success in the long run. It is useful as while stirring, the liquid is heated simultaneously. This magnetic stirrer is also silent, which isn't the same with mechanical stirrers. They provide a safe, efficient and reliable means of stirring liquids, significantly improving the quality of mixing and speed of reaction in many chemical and biological procedures.

# PERFUME PACKAGING MACHINERY

## CELLOPHANE CUTTING & MANUAL WRAPPING MACHINE

Product Code: PPM18-PCWM

Model No.: PP-CCWM100

The CELLOPHANE CUTTING AND MANUAL WRAPPING MACHINE is a device that unites film rolling and heating function. Ideal for manufacturers who wants easy and quick operation by hand or for daily uses which is very portable and handy.

### **Why should you buy PRIME PACK CELLOPHANE CUTTING & MANUAL WRAPPING MACHINE?**

Buying our machine provides a lasting competitive edge. Its unparalleled durability and superior performance not only exceed cheaper alternatives but also promise enduring value, ensuring your success in the long run. This machine unites film rolling and heating function. It is always used for cellophane, BOPP film wrapping products having ideal cellophane microns. Its semi-automatic operation makes it a really effective machine for those manufacturers who needs handy and daily operation. It can wrap nearly every size of small boxes as cigarette box, perfume box, cosmetic box, tea box and gift box.

## **PNEUMATIC SEMI-AUTOMATIC CELLOPHANE SEALING MACHINE**

Product Code: PPM24-CSM

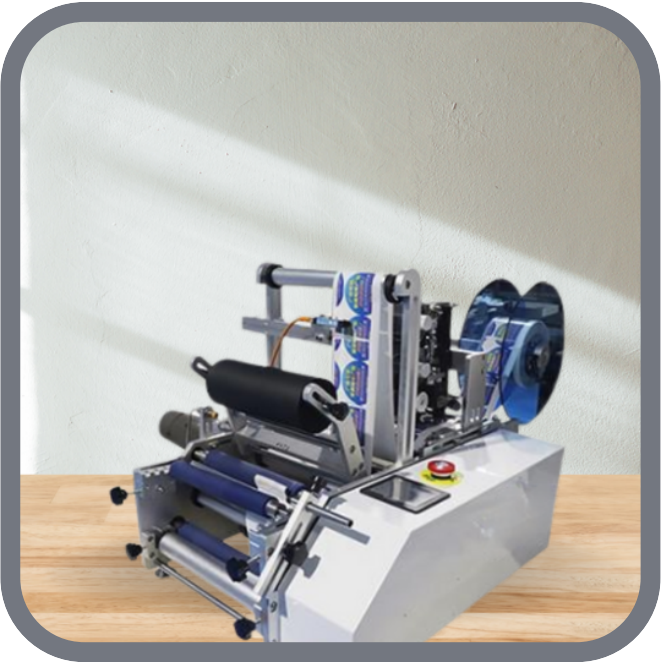

Model No.: PP-PN-SA-TBCSM100

A PNEUMATIC SEMI AUTOMATIC TOP AND BOTTOM BOX CELLOPHANE SEALING MACHINE is a machine that seals cellophane or BOPP wrapping on your product packaging. Ideal for manufacturers who want to make their operations quicker and more efficient.

### **Why should you buy PRIME PACK CELLOPHANE CUTTING & MANUAL WRAPPING MACHINE?**

Buying our machine provides a lasting competitive edge. Its unparalleled durability and superior performance not only exceed cheaper alternatives but also promise enduring value, ensuring your success in the long run. It is primarily used for wrapping products with cellophane and BOPP film. Its semi automatic operation makes it a highly effective machine for manufacturers seeking to increase their output. Therefore, it can wrap any size of small boxes, such as cigarette boxes, perfume boxes, cosmetic boxes, tea boxes, and gift boxes. Furthermore, the machine not only overcomes product size limitations but also enhances packing efficiency, increasing the speed from the former 15 pieces per minute to 20 pieces per minute.

## **SEMI-AUTOMATIC LABELING MACHINE FOR ROUND BOTTLES**

Product Code: PPM28-SALM

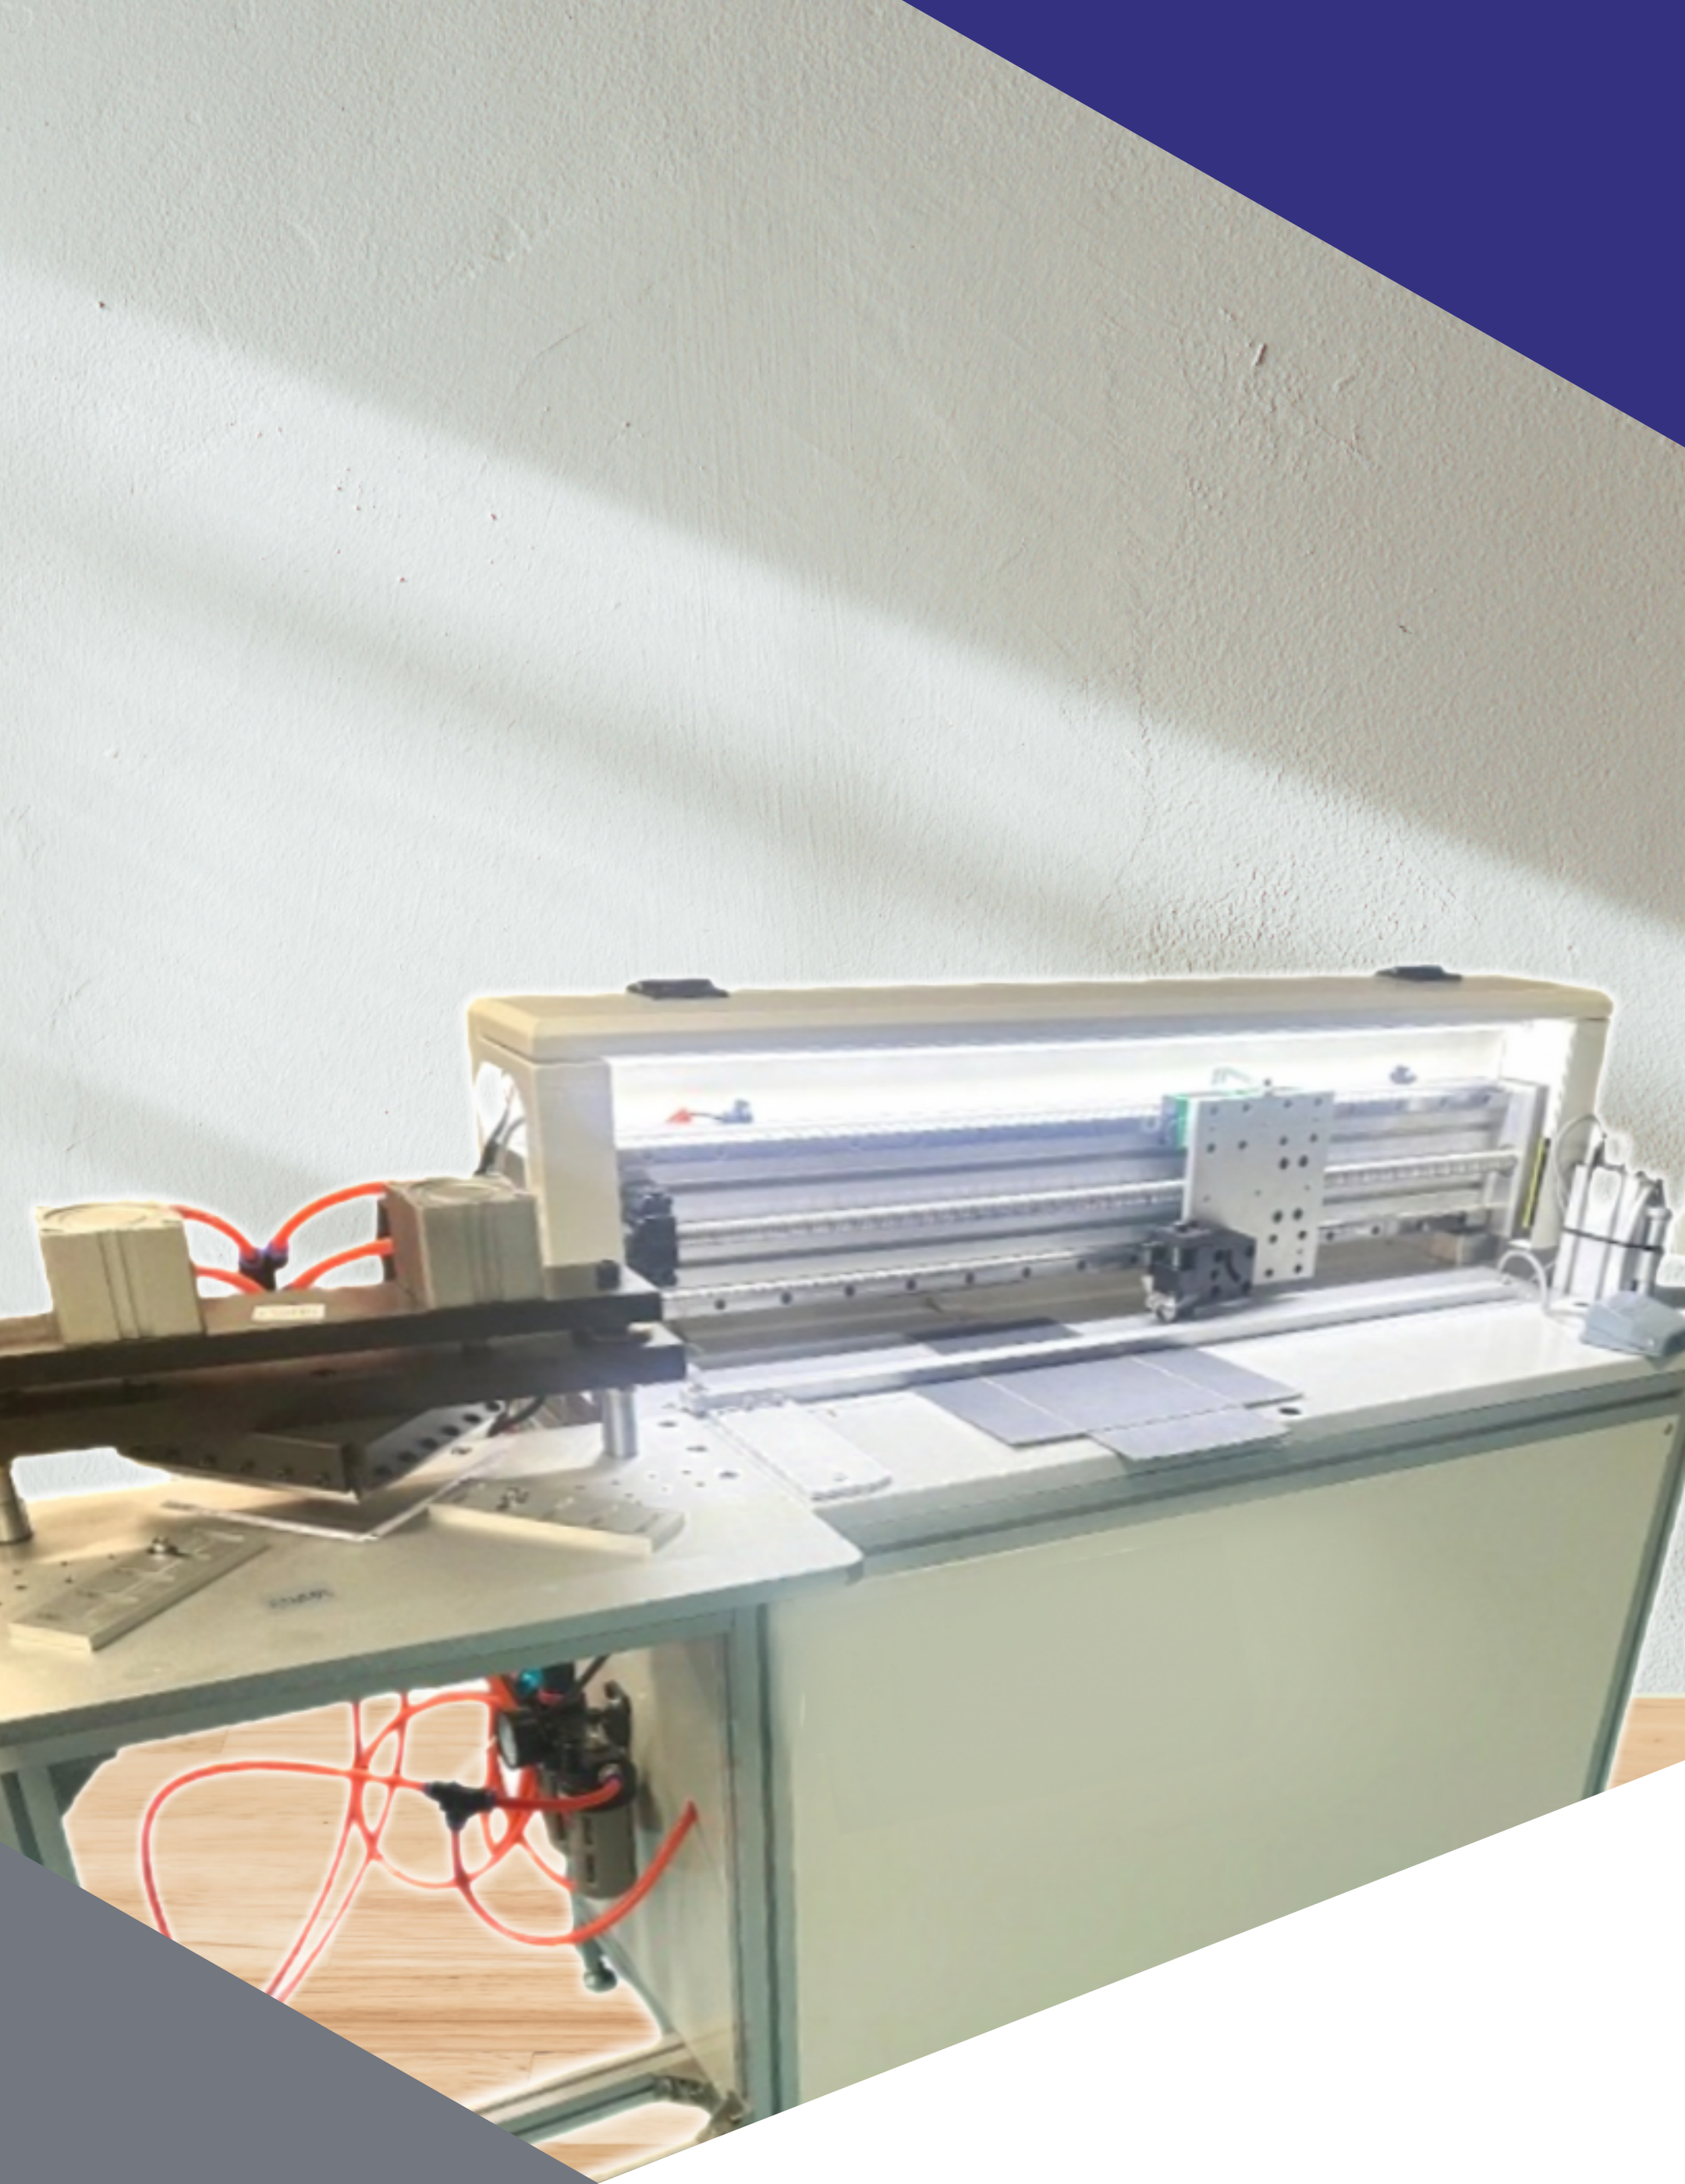

Model No.: PP-SA-LMB1000

The SEMI AUTOMATIC LABELLING MACHINE is a device that works as effectively as 50 workers. It can label around the entire item or just half, and it can label both the front and back with adjustable spacing. This machine is incredibly versatile and efficient, ensuring accurate and consistent labelling. It helps businesses simplify operations while maintaining top-notch quality.

### **WHY SHOULD YOU BUY PRIME PACK SEMI-AUTOMATIC LABELING MACHINE?**

Our semi-automatic labelling machine is a valuable asset for businesses across diverse sectors. It effortlessly handles tasks from applying self-adhesive labels to barcodes, catering to industries like food, medicine, electronics, and more. With the productivity equivalent to 50 workers, it significantly reduces labour costs while ensuring precise label placement, whether for full or half-circumference labelling, front and back labelling, or adjustable label spacing.

Versatile and adaptable, this machine accommodates products with various surface shapes, flawlessly applying single or double labels. From small-scale operations to large-scale production, it guarantees efficiency and uncompromising quality, making it indispensable for companies aiming to streamline their labelling processes and enhance productivity.

# PACKAGING BOXES MACHINERY

## **SEMI-AUTOMATIC V-GROOVE MACHINE FOR BLEACH BOARD & GREY BOARD**

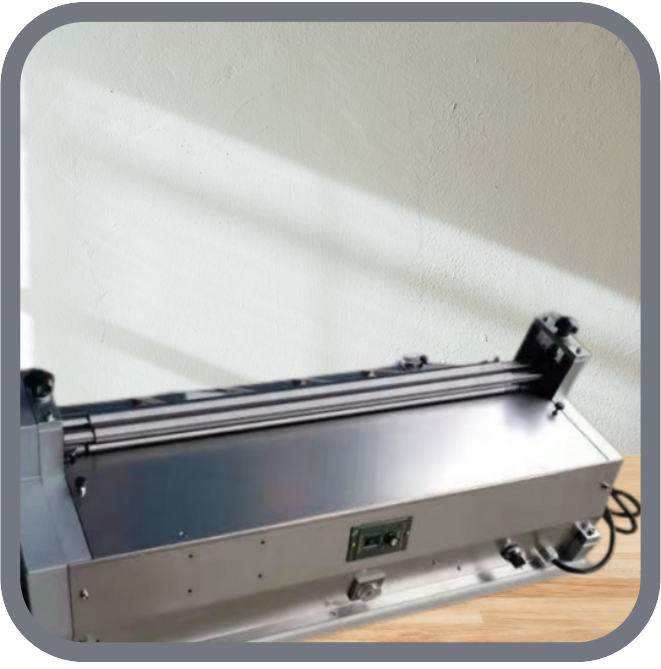

Product Code: PPM22-VGM

Model No.: PP-SA-VGM-FBBGB100

The SEMI-AUTOMATIC V GROOVE MACHINE FOR BLEACH BOARD AND GREY BOARD is a piece of equipment designed for processing and shaping boards, specifically bleach board and grey board, commonly used in packaging and printing industries. The term "V-groove" refers to a V-shaped groove or indentation created on the surface of the board. This groove can serve various purposes, such as facilitating folding, bending, or creating a clean, precise edge.

### **Why should you buy PRIME PACK SEMI AUTOMATIC V GROOVE MACHINE?**

Equipped with high-precision slide rails and an aviation aluminium workbench, this machine ensures excellent precision and proofing effects. It features automatic corner cutting and automatic V-groove devices. The use of servo program-controlled adjustment parameters allows for easy customization of the V-groove distance based on product size, saving time and enhancing efficiency. Additionally, its convenient control design facilitates swift tool holder plate changes, ensuring high stability. This machine finds extensive application in the proofing and small-batch production of boutique gift boxes and leather cases.

## GLUING MACHINE

Product Code: PPM24-CSM  
Model No.: PP-PN-SA-TBCSM100

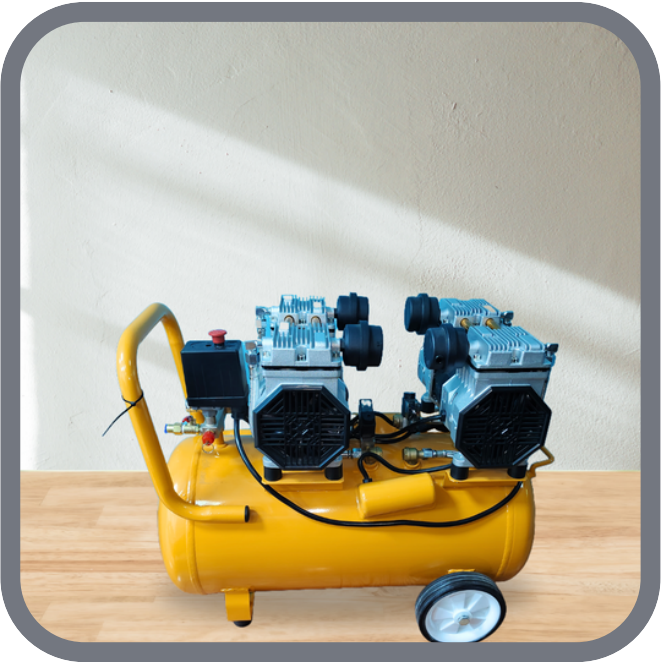

The GLUING MACHINE is a solid two-roller gluing machine for hot glue and thanks to its belt drive, it stands out for its extremely smooth and vibration-free running.

### **Why should you buy PRIME PACK GLUING MACHINE?**

Buying our machine provides a lasting competitive edge. Its unparalleled durability and superior performance not only exceed cheaper alternatives but also promise enduring value, ensuring your success in the long run. The rollers, table and basin are made of stainless steel, which prevents rust when working with water and glue. At the same time, it offers the machine a certain robustness. Using the control panel at the bottom left of the machine, the temperature and speed can be regulated as desired. The glue is applied evenly. In addition, the processing of high grammages is possible due to the contact pressure rollers.

# MISCELLANEOUS MACHINERY

## SILENT OIL-FREE AIR COMPRESSOR 50L

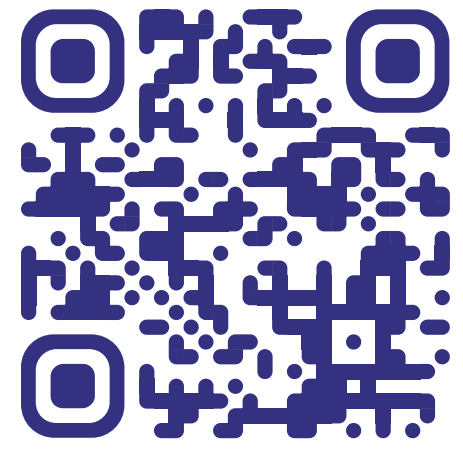

Product Code: PPM26-AC50L

Model No.: PP-AC-SOF-50L

This SILENT OIL-FREE 50-LITRE AIR COMPRESSOR enables you to power pneumatic machines, tools, gadgets, and more. Equipped with oil-free technology, the manufacturer can save costs on oil, ensure easy maintenance, and minimize pressure losses on filter systems, thereby conserving energy.

### **Why should you buy PRIME PACK SILENT OIL-FREE 50-LITRE AIR COMPRESSOR?**

Buying our machine provides a lasting competitive edge. Its unparalleled durability and superior performance not only exceed cheaper alternatives but also promise enduring value, ensuring your success in the long run. Using oil-free air compressors offers a variety of benefits. They allow you to minimize operating costs by saving on oil, energy from oil filters, and maintenance expenses, thereby increasing efficiency. Additionally, they provide clean and oil-free air.
